

Looked After Children Service

Your Health Assessment

**Information
for young
people
& carers**

Your health assessment

This leaflet will explain what will happen when you attend your health assessment.

We are a team of nurses and paediatricians who assess the health needs of Looked After Children and Young People.

We are employed by East Coast Community Healthcare and the James Paget University Hospital. We work closely with your social worker and carer to make sure that you receive all the healthcare you need.

What is a health assessment?

A health assessment is a check-up that all Looked After Children are offered once a year. Children under five years old have two assessments each year. Assessments may be offered in-clinic, at school or at home.

Brought to you by East Coast Community Healthcare

Pradeep Venugopal
Community Paediatrician

What happens at my assessment?

At your initial assessment, you will see a doctor.

The doctor will ask you some questions about your health and will answer any worries you may have. You can choose whether you have a physical examination or not.

At your review assessment, you will see a nurse.

Similar to your initial assessment, the nurse will ask you some questions about your health, and will answer any worries you may have.

You will not be examined, but your height and weight will be measured, if you are happy with this.

You will also have the opportunity to ask questions about how your body works or talk about anything that is worrying you.

You can choose whether you have a physical examination or not

The doctor/nurse will check your:

Height

Weight

Hearing

Eyesight

Health

Can I make an appointment at other times? **Yes!**

You can arrange an appointment through your key worker, social worker or carer, or you can make an appointment yourself, by calling the LAC team on **01502 572380**.

You can make an appointment to:

- Discuss a health concern you have
- Talk to someone about issues such as sexual health, drug use or emotional problems

If necessary, we can refer you to be seen by another NHS service, such as a GP, hospital clinic or specialist service

We also provide:

- Immunisation updates to keep you protected against common conditions
- Advice and information for carers on child development, emotional difficulties, diet, nutrition and common health problems

Can I be seen on my own?

Your carer or key worker will normally come with you for an appointment.

However, you can choose to see the nurse or doctor by yourself. Your carer or key worker will be asked to wait in a separate room until you are finished.

Who will know about my care and treatment?

Your medical records will stay with the Looked After Children team; this is called a SystmOne record. Only a summary of your health assessment will be sent to you and/or your carer, your social worker, GP and any other person you agree for us to send it to.
